Life was different in the sixties.

The music was different, hairstyles were different, fashion was different and even the

pace of life was different, more casual and relaxed. Not as frantic as the seventies and

eighties, or so it seems looking back. Technology has seen the fastest rate of change and the advances in communication systems have heightened the pace of life as we know it today in the late nineteen nineties. We can only imagine what waits in store for us as the millennium approaches.

by GHC Group Since 1969

It is reassuring in this world of change to know that some aspects of the British way of life remain as they always were. The British love of the countryside is as great if not greater than ever. Providing a welcome contrast to busy city life, our fields, hills and rivers draw people out of doors whenever time allows to breathe fresh air, to stretch car cramped limbs and enjoy the camaraderie that country pursuits can bring.

Country Clothing by GHC Group is an integral part of this enjoyment of the British countryside. Since 1969 we have designed and tailored a range of very special garments to enhance the outdoor life. Some of the designs we produce today are identical in every detail to those early garments - waxed cotton has resisted the pressure of technology and held its position in the wardrobe throughout the radical changes in the rest of the fashion world. Like blue jeans a waxed jacket will always be there, always reassuringly familiar, a garment for all ages.

Royal Paddock is a comprehensive collection of superior quality wax cotton garments. The brand is renowned throughout Europe for its style and attention to detail. The range includes traditional hunting and riding styles which have retained their popularity for decades and some innovative new styles for fashion wear and modern day pursuits such as the motorcycle jackets. This brochure shows just a sample of the extensive Royal Paddock range and customers are invited to discuss their requirements with our fashion designers. As a family owned business we pride ourselves on flexibility and an ability to respond quickly to the requests of our customers.

GHC Group was founded in Nottingham in 1969 by Mr. S. Singh with the support of his father, moving to Birmingham, the hub of the textile industry in the United Kingdom, in 1983. For nearly thirty years the GHC Group has worked to develop long term relationships with a steadily growing client base and a philosophy of monitoring quality rather than simply seeking growth in terms of output quantity has served the company well. Customers include leading high street stores, mail order companies and buying corporations throughout the whole of Europe in addition to smaller independent retailers for whom we often produce bespoke styles. With a production capacity of up to 7000 garments per week in house, smaller orders can be accommodated as easily as large orders and our prices are very competitive in the market place.

With quality as a priority, GHC Group use only the finest quality materials and fasteners to ensure that every garment will give reliable and enduring performance and withstand the very worst of weather conditions! Each style has a generous range of features, some with leather, corduroy or moleskin trim, to give the customer the widest possible choice to enhance their lifestyle. The fabrics themselves are varied too, from the smooth, fine grained Super-Wax to a rugged canvas, all in a choice of colours as indicated in the following pages.

We hope that you enjoy browsing through this introduction to our Royal Paddock collection and look forward to speaking to you soon or welcoming you to our 40,000 square foot premises in Birmingham.
